

ASSESSMENT FORM

INTERNSHIP

Student Peter Roosen **Date** 16/01/2018
First Examiner Jacques Terken
Second Examiner Pierre Levy

Overall Competence of Design	Design and research processes	Good	
	Deliverables	Good	
Scientific and Professional Skills	Presenting	Sufficient	
	Reporting	Good	
	Organizing and planning	Good	
	Reflecting	Sufficient	
	Cooperating	Good	
Vision and Identity	Professional identity	Sufficient	
	Vision	Sufficient	
Development	Addressed expertise areas	Creativity and aesthetics	Good
		Technology and realization	Not applicable
		User and society	Good
		Business and entrepreneurship	Good
		Math, data and computing	Not applicable
	Has met goals as described in PDP	Yes	
Feedback	<p>P Overall a useful internship. Learning goals were achieved and the internship helped to further develop vision and identity. Good quality of deliverables. It is interesting to see that now, after two years in the Bachelor and a year in the Lucid board you have started to change from your previous (more engineering) identity (resulting from being educated as an electrical engineer in a professional school) towards a more designer identity, and - more importantly - a specific designer identity. For your FBP: Don't forget about your previous identity, so the advice is to integrate your engineering skills and (social) design skills. Your reflections can still become a bit stronger and more precise, although we realize that your vision and identity are also the outcome of a process, and that you are in the middle of this process. Just push it a bit harder.</p>
